## **Introduction**

The District Improvement Plan (DIP) has been designed to provide schools and districts with a common planning template that addresses student learning and system needs that have been identified through the schools' Comprehensive Needs Assessment.

# **Improvement Plan Stakeholder Involvement**

## **Introduction**

The responses should be brief, descriptive, and appropriate for the specific section. It is recommended that the responses are written offline and then transferred into the sections below.

## Improvement Planning Process

### Improvement Planning Process

**Describe the process used to engage a variety of stakeholders in the development of the institution's improvement plan. Include information on how stakeholders were selected and informed of their roles, and how meetings were scheduled to accommodate them.**

Our District Improvement Team utilizes an MTSS model to review district data and complete the District Improvement Plan. This team reviews goals, programs, and special populations budgets for the district. This group works with Kent ISD as our The team consists of teacher leaders and administrators from each school. The DIT meets 3-4 times per year for District Improvement planning as well as monthly for work sessions related to the action plan. Parents are involved in the process through Key Communicator meetings.

**Describe the representations from stakeholder groups that participated in the development of the improvement plan and their responsibilities in this process.**

Participants represented their grade level and school in discussions about perceptions and realities of curriculum, instruction, assessment, and professional development. The District Improvement Plan was reviewed and revised during District Implementation Team meetings with input from teachers and administrators. The input from the building level School Improvement Plans, Core Content Area teams, Administrative team, and Central Office team will be combined to develop a final District Improvement Plan. This plan will be shared with all stakeholders for final review prior to final approval.

**Explain how the final improvement plan was communicated to all stakeholders, and the method and frequency in which stakeholders receive information on its progress.**

The final plan will be emailed to each participant for their review. We will communicate progress and gather input at each meeting throughout the year to influence amendments and processes for the next school year.

## Goals Summary

The following is a summary of the goals encompassed in this plan. The details for each goal are available in the next section.

#	Goal Name	Goal Details	Goal Type	Total Funding
1	All students at Caledonia Community Schools will become proficient in English Language Arts.	Objectives: 2 Strategies: 6 Activities: 20	Academic	\$902008
2	All students at Caledonia Community Schools will become proficient in Mathematics.	Objectives: 1 Strategies: 4 Activities: 6	Academic	\$8000
3	All students at Caledonia Community Schools will be proficient in Social Studies	Objectives: 1 Strategies: 3 Activities: 4	Academic	\$0
4	All students at Caledonia Community Schools will be proficient in Science	Objectives: 1 Strategies: 4 Activities: 5	Academic	\$7000
5	Caledonia Community Schools will implement an MTSS Framework.	Objectives: 3 Strategies: 3 Activities: 12	Organizational	\$64960

# Goal 1: All students at Caledonia Community Schools will become proficient in English Language Arts.

## Measurable Objective 1:

80% of Third, Fourth, Fifth, Sixth, Seventh, Eighth, Ninth, Tenth and Eleventh grade students will demonstrate a proficiency in Reading in English Language Arts by 06/01/2022 as measured by M-Step and SAT.

## Strategy 1:

Differentiated Instruction: ELA - All teachers and support staff will implement strategies of differentiated instruction for reading proficiency according to the needs of the students. Differentiation will include instruction in the 5 strands of reading including phonemic awareness, phonics, vocabulary, fluency and comprehension. Differentiation will also include technology integration. Instructional strategies that have large effect size on school districts include differentiated instruction, informative assessments, and student engagement. Teachers will implement these to increase achievement for all students including students with disabilities and free/reduced students.

## Goal 2: All students at Caledonia Community Schools will become proficient in Mathematics.

### Measurable Objective 1:

75% of Third, Fourth, Fifth, Sixth, Seventh, Eighth, Ninth, Tenth and Eleventh grade students will demonstrate a proficiency in all strands in Mathematics by 06/30/2020 as measured by MStep/SAT.

### Strategy 1:

Implementing Differentiated Instructional Strategies-Math - Teachers will implement instructional strategies identified as "best practices". These strategies will be based on the needs of their students and as identified by their comprehensive needs assessment and their building school improvement plan. IE: Elementary schools will implement strategies to increase student achievement with basic operations, while middle school will implement pre algebra skills to prepare students for high school. Differentiation and instructional strategies will be defined through the development and implementation of the Caledonia Curriculum Model which addresses various levels of instruction. We will also explore differentiation through technology. Instructional strategies that have large effect size on school districts include differentiated instruction, informative assessments, and student engagement.
