Learn more about the Caledonia Community Schools Non-Homestead Millage on the Nov. 5 ballot:

*How CCS has a proven track record of success inside and outside the classroom

*Learn more about how this proposal will allow us to build on that proud tradition of excellence

*How the CCS Non-Homestead Millage will generate necessary revenue for our schools - **Why a homeowner's (or agricultural land) property taxes will not be impacted**

*Learning how restoring these millage dollars is essential to leveraging state per-pupil dollars and providing CCS with the revenue needed to keep pace and educate students this year and for the future

*Understand what happens if the millage is not restored, and how the district will experience its third consecutive year of lost funding, which will lead to greater cuts, layoffs and the elimination of important programs down the road
