

Lesson: Silly Bug Poem

Grade Level: Kindergarten

Software: Millie's Math House

Instructions:

1. Student opens Millie's Math House
2. Student selects Build a bug activity
3. Teacher reads a poem with numbers of objects that students then add to bug.
4. Students can then print out picture

Let's make a silly bug today,  
Put on 8 feet so it can play,  
Now 3 tails in a funny way,  
Then 5 ears. Can it hear what you say?

This bug is so funny, too big for a flea.  
Let's add 4 eyes so it can see,  
And 9 antennae as you please,  
Then 6 spots. Looks fine to me!
